

ASHIK S

Full Stack Developer | Web and App Development

+91 6379 645990 | ashisuji0987gmail.com | Coimbatore, India

CAREER SUMMARY

Full-Stack Developer with hands-on experience in designing, building, and deploying web and mobile applications, including Flutter and FlutterFlow apps, using React, React Native, Flutter, JavaScript, and TypeScript, Java and Python and C programming. Proficient in backend development with Node.js, Express.js, PHP, and Laravel, with strong experience in RESTful API development and integration, authentication, and state management using GetX. Experienced in working with MySQL, MongoDB, and Supabase for database integration. Skilled in deploying applications on Vercel, Netlify, and Hostinger, including DNS configuration and SSL setup. Possesses strong analytical and problem-solving skills with a solid foundation in modern software engineering practices, seeking a challenging role where I can apply my full-stack and mobile app development expertise to contribute effectively to an engineering team.

PROFESSIONAL EXPERIENCE

Full Stack Developer (Software Engineer)

Pixel Perfect Software Solution, Coimbatore | April 2025 – Present

- Developed 15+ production-ready web applications using React.js, Vite, JavaScript, and TypeScript, delivering clean UI, responsive layouts, and optimized performance for real clients.
- Built 3+ fully functional mobile applications using React Native, Expo, and Flutter, integrating backend services, authentication flows, payment modules, and real-time data synchronization.
- Designed and developed end-to-end full-stack features including user authentication (login/register), cart systems, order management, admin dashboards, PDF invoice generation, and secure data storage.
- Integrated multiple backend systems such as Node.js (Express.js), Laravel, Supabase, MySQL, and REST API-driven services to support scalable and modular application features.
- Implemented RESTful API design, database schema planning, SQL queries, relational data structures, and cloud database management.
- Worked across the complete product lifecycle, including requirement analysis, architecture planning, development, deployment, and post-release client feedback.

- Deployed applications using Vercel, Netlify, shared hosting environments, handling domain/DNS configuration, SSL certificates, email setup, and backend API hosting.
- Collaborated in a startup environment, managing high ownership across frontend, backend, UI design, testing, and deployment.
- Maintained clean and well-documented repositories using Git/GitHub, following branching strategies, pull requests, and version control best practices.

Software Engineer Trainee (Web & App Development)

Pixel Perfect Software Solution, Coimbatore | December 2024 – March 2025

- Worked in a structured learning and training phase focused on web and mobile application development. Assisted in developing applications using React.js, React Native, Flutter, and FlutterFlow.
- Implemented UI components, REST API integration, and GetX state management under senior developer guidance, backend integration tasks using Express.js, Laravel, and MySQL.

KEY SKILLS

- Programming Languages: Java, JavaScript, TypeScript, C, Python
- Front-End & UI Development: React.js, React Native, Vite, Vue, Angular. HTML, CSS, Tailwind, Bootstrap. Responsiveness, Routing, Form Handling, UI/UX Design
- Back-End Development: Node.js, Express.js, PHP, Laravel
- Databases & Data Management: MySQL, MongoDB, Supabase, SQL Queries, Database Modeling
- API Development & Integration: REST APIs, JWT Authentication, JSON Handling, Data Fetching, API Testing (Postman)
- Mobile Application Development: Cross-Platform App Development, Flutter, State Management (GetX), Navigation, UI Components, Android Studio
- Web Development Concepts: Responsive UI Design, Component-Based Architecture, Routing, Form Handling, UI/UX Principles
- Cloud Deployment & Hosting: Vercel, Netlify, Hostinger (cPanel), Domain & DNS Configuration, SSL Certificate Setup
- Tools & Platforms: Git, GitHub, Visual Studio Code, XAMPP, Expo Go, Npm
- Problem-Solving & Soft Skills: Analytical Thinking, Debugging, Team Collaboration, Adaptability, Communication, Time Management

EDUCATION

Bachelor of Engineering (Electronics and Communication Engineering)
Sri Ramakrishna Engineering College, Coimbatore | 2020 – 2024 |
